BACK TO THE VEHICLE WHERE IT ALL BEGAN:

In the beginning, there was the sports car. This, at least, holds true for the creation of the legendary Chronograph I. The timepiece was designed in 1972 by Professor Ferdinand Alexander Porsche and featured a matte black dial, white hands and indices, and a red stopwatch second hand that were all inspired by the functional vehicle instruments inside the 911 and other Porsche racing cars. With his timeless and uncompromising design language, he revolutionized the status quo of the luxury watch industry at the time – because until then exclusive wristwatches were predominantly sparkling pieces of jewelry in silver and gold. With his puristic timepiece, Prof. F. A. Porsche took

a completely new, untródden path. The maxim “form follows function” derived from this has been at the core of the company’s philosophy since the very beginning – and the clean lines, strong contrasts continue to characterize every Porsche Design timepiece produced. Even now, almost 50 years later. Since then, wearing Porsche DNA on the wrist has been established as an exclusive experience. Time to come full circle: with the new Sport Chrono Collection and the Sport Chrono Package with Porsche Design Subsecond watch. Porsche Design has returned to where it all began – in the sports car itself. With pride of place in the middle of the dashboard.

SPORTS CARS AND WATCHES. INSEPARABLY LINKED.

As early as 1963, the Porsche 911 featured an electrically powered clock as part of the 5-tube instruments. In the early 2000s, Porsche enhanced the display by adding an additional central instrument in the middle of the dashboard. Initially, it enabled lap times to be displayed. It was continuously developed until, as part of the Sport Chrono Package, it was no longer a classic

three-hand watch, but an instrument with digital display and hands. The vision of combining an optimally legible timekeeping instrument with a sports car has now become reality with the new Sport Chrono Package with Porsche Design Subsecond watch, which is available in the Panamera, Taycan and 911.

UNMISTAKABLE PORSCHE DESIGN. IN THE VEHICLE AND ON YOUR WRIST.

Three dial color options – black, blue or brown – and two different case sizes provide the perfect companion to the subsecond version on the dashboard of the vehicle. With its metal dial and running seconds at 6 o'clock, it not only impresses with its stylish, minimalist design, but with a high-quality and

highly durable titanium case. Thanks to a soft strap made of genuine Porsche vehicle leather, the various models are not only comfortable, but timelessly elegant on the wrist of the wearer – and thus form the perfect complement to the Sport Chrono Package of the vehicle.

SEVEN MODELS. ONE ICONIC STYLE.

In line with the tradition of the Chronograph I, the Sport Chrono Collection translates the timeless design of Porsche instruments into an exclusive timepiece: as subsecond timepieces in three different color options or chronometers with chronograph function.

With the Subsecond timepiece, for the first time in the history of Porsche Design, a timepiece is being released in two different case sizes: the familiar 42 mm version, and a new 39 mm version.

DESIGNED IN ZELL AM SEE. MANUFACTURED IN SOLOTHURN.

For years, Porsche and Porsche Design have been transferring their core competencies into independently developed technical masterpieces. Two of these are put to use in the Sport Chrono Collection: while the WERK 03.200 caliber with display of the running seconds does its work in the Subsecond watch, the WERK 01.100, which has an additional stop function, is the movement in the Chronograph. The sapphire crystal back in this model allows you to marvel at what has always made Porsche Design watches special – the unmistakable

combination of attention to detail and technical expertise. This perfect symbiosis has been translated into high-quality timepieces in Solothurn since 2014 – at Porsche Design's own watch manufactory, Porsche Design Timepieces AG. There, engineers and watchmakers work side by side to ensure maximum performance out of each model. To make each design even more timeless. And to bring the accustomed Porsche quality not only into vehicles, but also to wristwatches. Bringing an entirely new kind of value to every second.

TECHNICAL DATA

PORSCHE DESIGN SPORT CHRONO SUBSECOND

CASE

39 MM

Diameter	39 mm
Height	12.25 mm
Material	Titanium
Finishing	Glass bead blasted and polished
Crown	Screwed
Glass	Sapphire crystal with hard coating, scratch-resistant and with sevenfold anti-glare properties on both sides
Case back	Closed bottom, screwed
Waterproof	Dynamically waterproof up to 10 bar

DIAL/HANDS

Black with white accents, minute, hour, second display at 6 o'clock, date window at 3 o'clock
Blue with white accents, minute, hour, second display at 6 o'clock, date window at 3 o'clock
Brown with white accents, minute, hour, second display at 6 o'clock, date window at 3 o'clock

STRAP

Black Porsche vehicle leather, tonal decorative stitching
Blue Porsche vehicle leather, gray decorative stitching
Brown Porsche vehicle leather, tonal decorative stitching

CLASP

Folding clasp with push-pieces

MOVEMENT

Caliber	Porsche Design Caliber WERK 03.200, three hands with decentralized seconds display, COSC-certified
Rotor	Porsche Design Icon Rotor
Diameter	25.60 mm
Height	5.60 mm
Power reserve	38 hours
Jewels	31
Frequency	28,800 per hour (4Hz)

42 MM

Diameter	42 mm
Height	12.25 mm
Material	Titanium
Finishing	Glass bead blasted and polished
Crown	Screwed
Glass	Sapphire crystal with hard coating, scratch-resistant and with sevenfold anti-glare properties on both sides
Case back	Closed bottom, screwed
Waterproof	Dynamically waterproof up to 10 bar

Black with white accents, minute, hour, second display at 6 o'clock, date window at 3 o'clock
Blue with white accents, minute, hour, second display at 6 o'clock, date window at 3 o'clock
Brown with white accents, minute, hour, second display at 6 o'clock, date window at 3 o'clock

Black Porsche vehicle leather, tonal decorative stitching
Blue Porsche vehicle leather, gray decorative stitching
Brown Porsche vehicle leather, tonal decorative stitching
